SAFETY AND LEGAL NOTICE

The tools and products featured in this catalog are presented for general reference and are intended for use only in the applications and environments for which they were designed. Users are responsible for selecting the appropriate product for each task and using it in accordance with applicable laws, safety standards, and industry best practices. Before using any MARSHALLTOWN product, always read and follow all instructions, warnings, manuals, and safety labels. Always wear appropriate personal protective equipment (PPE). Never alter, modify, or tamper with any product. Unauthorized modifications may compromise performance or safety and will void any applicable warranty. Never use any product outside of its intended application. Improper selection, use, or modification of these products may result in equipment failure, property damage, or serious personal injury. Inspect tools prior to each use and discontinue use if damaged, worn, or defective.

Unless otherwise noted, the product names, logos, slogans, packaging designs, photographs, and descriptions in this catalog are the property of MARSHALLTOWN or its affiliates and may be protected by U.S. and international intellectual property laws. No reproduction, distribution, or other use of this material is permitted without prior written authorization.

MARSHALLTOWN reserves the right to modify product designs, specifications, pricing, or availability at any time without prior notice.

Warranty coverage, where applicable, is subject to the terms and conditions in effect at the time of sale. This catalog does not create, modify, or extend any warranty. Unless expressly provided in a written warranty, MARSHALLTOWN disclaims all warranties to the extent permitted by law, including implied warranties of merchantability and fitness for a particular purpose. WHEN A BETTER TOOL IS MADE...
MARSHALLTOWN WILL MAKE IT!

In 1890, Jesse and Lester Williams started a small machine shop on East Church Street, repairing bicycles and automobiles and fulfilling the occasional tool order for local contractors.

A local plasterer requested some customized tools and was pleased with the result. More tool requests trickled in. The Williams brothers made a few more trowels and put them on the market. Word spread quickly and orders increased. Their small shop had quickly grown into a manufacturing and mail order business with a specialty in trowels, resulting in the need for more space.

In 1902, the Williams brothers built a two-story machine shop on South 8th Avenue in Marshalltown, Iowa. In 1905, they incorporated the name "Marshalltown Trowel Company."

The company continued to grow, and demand exceeded their production capabilities, leading to an expansion in Fayetteville, Arkansas in 1981.

In 2003, with a catalog of over 5,000 products for professionals and do-it-yourselfers, Marshalltown Trowel Company changed its name. The company had long since become more than just a "trowel" supplier. To its customers and others in the industry, it was known for the best tools and by one name—MARSHALLTOWN.

Today, MARSHALLTOWN is one of the largest tool manufacturers in the world. MARSHALLTOWN continues making improvements to its infrastructure, manufacturing, and distribution processes to ensure it can continue to serve its customers well for the next 135 years.

1890
Jesse and Lester Williams started a small machine shop. Word of their customized tools spread rapidly.

1902
Moved to a larger space to keep up with increasing orders.

1905
Officially named "Marshalltown Trowel Company."

1909
Marshalltown embarked on its first large marketing campaign across US & Canada.

1918
Marshalltown sent 18,000 trowels overseas to the US Army during the World Wars. Impressed by the tool quality, unprecedented European orders flooded in.

1930
At this time, Marshalltown was the largest exclusive manufacturer of masonry tools in the world.

1982
Marshalltown formed its subsidiary, "Marshalltown Tools," and began production in its new facility in Fayetteville, AR.

1990's
Marshalltown was the first company to put a soft-grip handle on a construction tool, thereby revolutionizing the hand tool industry.

2003
The company had long since grown to be more than just a "trowel" supplier. To reflect that, Marshalltown Trowel Company changed its name to MARSHALLTOWN.

2018
MARSHALLTOWN acquired Spin Screed®, the world's first lightweight power roller screed, continuing to help contractors produce flatter, more durable concrete surfaces.

Spin Screed Inc.

BULLET
A MARSHALLTOWN BRAND

2019

MARSHALLTOWN expanded its line of flooring, tiling, siding, and insulation shears and tools by acquiring Bullet Tools.

gatorback MORTARBOARDS

2020

MARSHALLTOWN finished off 2020 with the acquisition of Gatorback, a company specializing in premium mortar boards and mortar pans for the masonry trade.

2022

MARSHALLTOWN continued to be committed to making improvements to its infrastructure, manufacturing, and distribution processes, ensuring it can continue to serve its customers into the future.

BARWALT
A MARSHALLTOWN BRAND

2023

With the acquisition of BARWALT, an industry-leading manufacturer, MARSHALLTOWN grew its assortment of quality tiling tools and accessories.

2024

MARSHALLTOWN broke ground on its new state-of-the-art distribution facility in Kansas City, Kansas, advancing its growth and commitment to enhancing logistics capabilities across the United States.

2019

MARSHALLTOWN continued to grow. The new building addition in Marshalltown, IA, was completed.

2020

MARSHALLTOWN solidified its expansion into snow removal tools with the purchase of Avalanche!

Avalanche!
A MARSHALLTOWN BRAND

2021

MARSHALLTOWN added to its line of masonry tools and now offers customizable items with the acquisition of Frederick Tool Corp.

2022

MARSHALLTOWN expanded its drywall tools line by acquiring WAL-BOARD TOOLS, a market leader for more than 75 years.

WAL-BOARD TOOLS
A MARSHALLTOWN BRAND

2024

MARSHALLTOWN expanded its hand tool line with the purchase of VAUGHAN and DASCO PRO, who specialize in superior striking tools including hammers, pry bars, chisels, and punches.

VAUGHAN
A MARSHALLTOWN BRAND

DASCO PRO
A MARSHALLTOWN BRAND

2025 and beyond

MARSHALLTOWN is committed to serving its customers well into the future by continuously enhancing its infrastructure, manufacturing, and distribution processes.

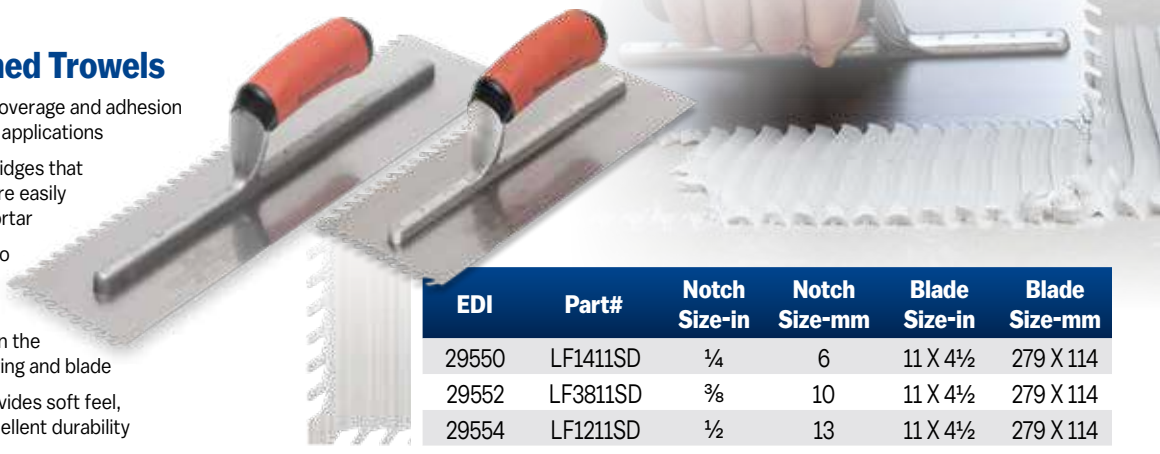
LayFlat™ Notched Trowels



- Designed to provide superior coverage and adhesion for medium to large format tile applications
- Wave-shaped notches create ridges that provide an overlapping and more easily collapsible action of thinset mortar
- Unique notch geometry helps to eliminate air pockets between the tile and underlayment
- Superior hold strength between the aluminum alloy Xtralite® mounting and blade
- Resilient DuraSoft® handle provides soft feel, reduces fatigue, and offers excellent durability
- Each LayFlat™ trowel comes with a merchandisable product hanger
- Sold 6 per inner pack/6 per outer pack, 4 per inner pack/4 per outer pack where noted with *

Kneepro UltraFlex III Knee Pads NEW

- Optimal protection for your knees
- Feature a hinged hard plastic outer shell for strength and durability
- Thick foam liner for user comfort
- Sold 1 per inner pack/ 24 per outer pack

EDI	Part#	Description
41420	BWT71205	Kneepro UltraFlex III Knee Pads

Ultralight™ Knee Pads NEW

- Fully rebuildable with replacement straps, buttons, and liners
- Folding accordion top for comfort while standing
- KN-1 Ultralight™ (***BWT20010***): excellent grip, maximum comfort and security; tough yet flexible nonskid outer shell; weigh 11 oz each
- KN-3 Ultralight™ (***BWT20030***): offer a smooth hard shell exterior with flat kneeling surface; hard cap is ultrasonically heat staked, eliminating the use of rivets
- KN-5 Ultralight™ (***BWT21210***): maximum comfort; feature a patterned gripping surface that won't collect small particles; great for roofing
- KN-All Season Knee Pads (***BWT20200***): same long-lasting outer shell and comfortable liner as KN-1 but with an added cloth cover and adjustable cloth straps; ideal for use with shorts or jeans
- Inner/outer pack quantities listed in table

Stair Tread Tool NEW

- Helps user measure and cut tread and risers of many widths for faster stair installations
- Stair treads are almost never square; this tool ensures material is cut to the exact angle of the stair
- Accommodates a standard 2 X 4" (51 X 102 mm) or smaller
- Clear, bold markings improve readability
- Built-in ruler provides precise measurements
- High-quality knobs and a strengthened top crossmember contribute to a superior clamping force
- Patent Pending
- Sold 4 per inner pack/4 per outer pack

Contains One Pair

Wood not included

EDI	Part#	Description
33208	STT	Stair Tread Tool

Tapping Block NEW

- Classic tapping block for installing plank flooring
- D-grip handle keeps hands away from pinch points
- Long edge helps avoid crushing click features
- Durable I-Beam style plastic construction
- 20" (508 mm) length is ideal for handling longer planks
- Sold 1 per inner pack/ 6 per outer pack

EDI	Part#	Size-in	Size-mm
33143	TB20	20	508

Striker Tapping Blocks

BA91-7119

STRKR

- All-in-one flooring tapping block doesn't require a hammer to use
- Ideal weight and optimized balance to strike tongue-and-groove planks into place
- Made of high-density polyethylene for long-lasting durability
- Choose between a wood handle or DuraSoft® handle for comfort and reduced fatigue
- Rounded corners allow you to strike planks at any angle
- NEW items shown red in table
- Sold 1 per inner pack/1 per outer pack

Carpet Row Finder

- Used to separate carpet rows without damaging loops and nap
- 2-stage needle point for cut-pile carpet
- Flat-tip for loop-pile carpet
- Solid stainless steel body is rust- and corrosion-resistant
- Anti-slip knurled grip
- Sold 1 per inner pack/ 12 per outer pack

MADE IN THE USA

EDI	Part#	Description
29502	SSRF	Carpet Row Finder

Loop Pile Cutter

- Adjustable throat opening for precision cuts on various thicknesses of carpet
- Dual blade design for cutting closer to the yarn edge for cleaner seams
- Base allows for cutting over top of other carpet by protecting material underneath
- Knurled knobs allow for tool-less blade replacement and tool adjustment
- Sold 1 per inner pack/ 6 per outer pack

EDI	Part#	Description
28790	LPC2	Loop Pile Cutter

Cushion Back Cuter

- Used to cut cushion back or conventional carpet
- Dual blade design for cutting closer to yarn edge for cleaner seams
- Knurled knob for tool-less blade replacement
- Accepts standard slotted carpet blades
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28781	CBC2	Cushion Back Cutter

Carpet Knife Blades

- Fits most brands of Carpet Knives
- Choose between square or round corners
- 100 per box
- Sold 1 per inner pack/ 1 per outer pack

MADE IN THE USA

14947	9060RB	Replacement Blades - Round Corners

Stair Tool

- Used to tuck carpet into stair crevices and tack strip
- Long-lasting chrome plated steel body
- Edges are rounded to prevent snagging and cutting
- Sold 1 per inner pack/ 4 per outer pack

EDI	Part#	Description
28789	ST35D	3½" (89 mm) Stair Tool

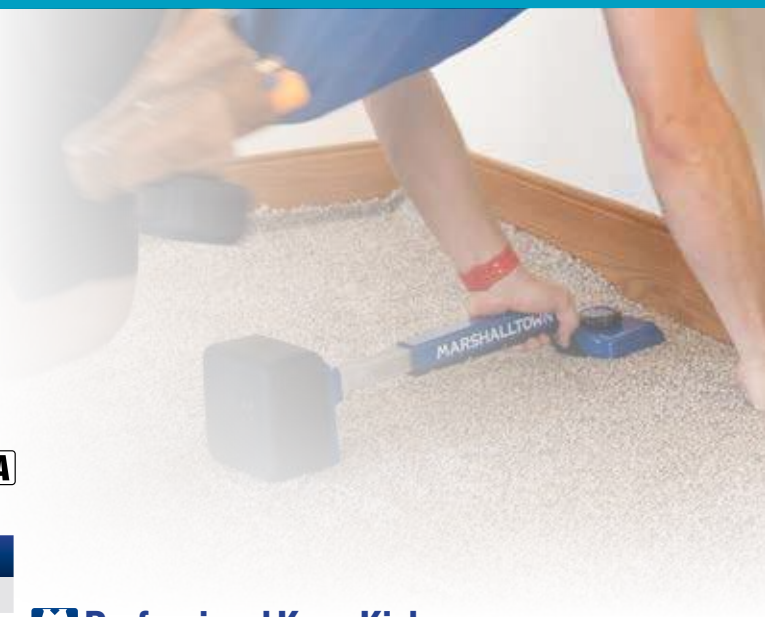
Stair Tool NEW

- For tucking carpet into stair crotches and tack strip
- Soft cushion grip provides added comfort and superior grip
- Edges are rounded to prevent snagging and cutting
- Chrome plated steel extends life of tool
- Sold 1 per inner pack/ 24 per outer pack

EDI	Part#	Description
12211	ST35	3½" (89 mm) Stair Tool

Magnetic Nail Driver

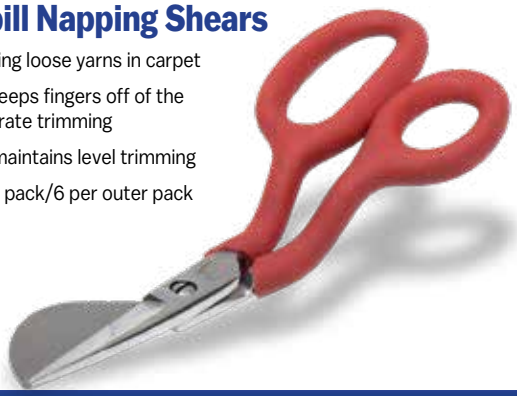
- Essential tool when using short brad nails for installing carpet tack strip and more
- Stainless steel body is rust- and corrosion-resistant
- Anti-slip knurled grip
- Hardened steel striking face is durable and long-lasting
- High strength rare-earth magnet firmly holds nails while being set with a hammer
- Sold 1 per inner pack/ 12 per outer pack



EDI	Part#	Description
29500	MND	Magnetic Nail Driver

Duckbill Napping Shears

- Used for trimming loose yarns in carpet
- Offset handle keeps fingers off of the carpet for accurate trimming
- Duckbill blade maintains level trimming
- Sold 1 per inner pack/6 per outer pack



EDI	Part#	Description
28785	DNS	Duckbill Napping Shears

Professional Knee Kicker

- Used to stretch carpet over tack strip for a better, tighter fit
- Adjustable pins
- Thicker pad for more knee relief
- Handle is extendable in length from 18¾ to 22¾" (476 to 578 mm)
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28783	AKK	Professional Knee Kicker

QLT Carpet Staples

- 3/16" (5 mm) crown 9/16" (14 mm) length
- 20-gauge fit most electric carpet staplers
- Comes in a box of 5,000
- Sold 1 per inner pack/ 20 per outer pack

EDI	Part#	Description	Qty
17472	ESTAPLES	Carpet Staples	5,000

QLT Economy Knee Kicker

- Used to stretch carpet over tack strip
- Soft grip handle
- Foam pad for knee comfort
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28784	EKK	Economy Knee Kicker

Extension Roller

- Used for rolling laminate and other floor coverings
- Non-marking rubber rollers
- Extends from 17 to 27" (432 to 686 mm)
- Sold 4 per inner pack/ 4 per outer pack

EDI	Part#	Description
28792	ER21	Extension Roller

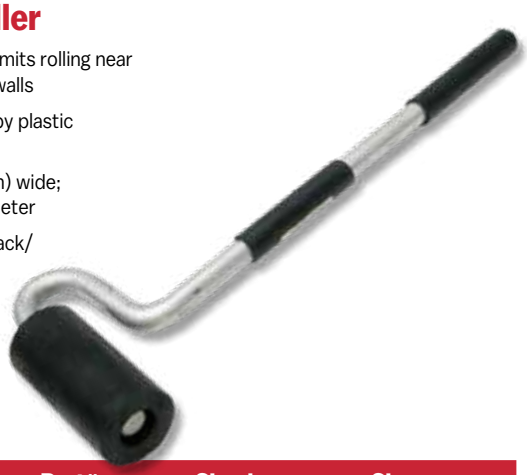
Smooth Carpet Seam Roller

- Improves seam strength by forcing adhesive into carpet backing
- Smooth wheel design reduces snags in carpet
- Can also be used for vinyl flooring
- DuraSoft® handle for increased comfort and reduced fatigue
- Sold 1 per inner pack/ 4 per outer pack

EDI	Part#	Description
28780	SSR6	6" (152 mm) Smooth Carpet Seam Roller

QLT "J" Roller

- Recessed end permits rolling near back splashes or walls
- Designed for use by plastic laminate installers
- Roller is 3" (76 mm) wide; 1½" (38 mm) diameter
- Sold 6 per inner pack/ 60 per outer pack



EDI	Part#	Size-in	Size-mm
16008	JR008	13	330

Carpet Seam Roller

- Improves seam strength by forcing adhesive into carpet backing
- Star wheel design blends carpet yarn at seam
- DuraSoft® handle for increased comfort and reduced fatigue
- Sold 1 per inner pack/ 4 per outer pack

EDI	Part#	Description
28779	SWSR6	6" (152 mm) Carpet Seam Roller

Carpet Seam Squeezers

- For holding carpet seams together when gluing down or preceding hot-melt seaming
- Sold 1 per inner pack/ 8 per outer pack

EDI	Part#	Description
29506	CSZ	Carpet Seam Squeezers

CONCRETE

WHY MARSHALLTOWN?

LARGER TOE RIVET
10% larger toe rivet increases pull strength between the blade and mounting at the 'working end'.

DIAMOND SHANK
Prevents handle from twisting and slipping. Our handle can withstand 70% more lbs of torque vs. the competition.

XTRALITE® MOUNTING
Our mounting is stronger, more durable, and is 10% lighter than the competition.

SUPERIOR DURABILITY
Engineered stainless steel thru-rivet connection produces the strongest and longest-lasting trowel in the world.

BLADE BEVEL
Our bevel is the most consistent and most gradual bevel of all trowels in the market. Critical advantage is to prevent aggregate popping.

BLADE STYLES

SQUARE

Allows user to work flush against walls without creating grooves or drag lines; provides a smooth, precise finish along edges and in corners

POINTED

Perfect for finishing hard-to-reach areas or tight corners

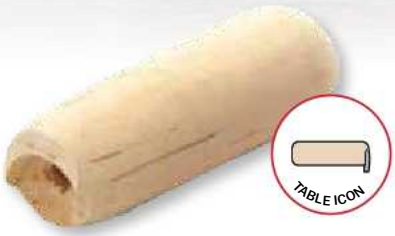
FULLY ROUNDED

Decreases the chance of leaving grooves or drag lines in concrete

FRONT ROUNDED

Rounded end decreases the chance of leaving grooves or drag lines while the square end is ideal for edge work

HANDLE STYLES



STRAIGHT WOOD

- *Traditional option*
- *Offers a smooth grip*
- *For those who prefer an original handle shape*

STRAIGHT DURASOFT®

- *Most popular handle type*
- *Resilient, comfortable, and long-lasting*
- *Reduces fatigue on the job*
- *Increased user control for an ergonomic experience*

CURVED WOOD

- *Traditional option*
- *Offers a smooth grip*
- *Easily shaped during manufacturing to fit the contours of the human hand*

CURVED DURASOFT®

- *Most popular handle type*
- *Resilient, comfortable, and long-lasting*
- *Reduces fatigue on the job*
- *Increased user control for an ergonomic experience*

CURVED DURACORK®

- *Great alternative to soft grip handles*
- *Textured, tacky feel provides an improved grip while helping to prevent blisters*
- *Lightweight and practically impermeable to liquids like rain, sweat, or water*
- *Comfortable and durable*

PermaShape® Finishing Trowels

- Beginning finishers can do a better job and be more productive sooner
- Broken-in shape eliminates line and ripple marks right from the start
- Beveled work edges prevent surface aggregate popping
- PermaShape® guarantees trowel will maintain original broken-in shape
- Highest grade hardened and tempered golden stainless or spring steel blade; properly shaped and fastened with stainless steel rivets
- Aluminum alloy Xtralite® mounting is lightweight but very strong
- Resilient DuraSoft® handle provides a soft feel, reduces fatigue and offers excellent durability
- Sold 1 per inner pack/12 per outer pack, 6 per inner pack/6 per outer pack where noted with *

QLT Curved End Steel Hand Edger

- Has a steel blade, steel mounting and wood handle
- Both ends are curved up for use in either direction
- Used to produce a radius at the edge of a concrete slab to help prevent the end from chipping
- Sold 12 per inner pack/ 60 per outer pack

EDI	Part#	Size-in	Size-mm	Radius	Lip
16492	92	6 X 2¾	152 X 70	⅜" (10 mm)	½" (13 mm)

Heavy-Duty Zinc Walking Edgers

- Made from high-quality, long-wearing zinc
- Curved up at both ends for easy push/pull motion
- Longer lasting and heavier than steel edgers
- Helps eliminate bending when edging large areas of concrete
- Use with our ***9*** or ***10*** handle (sold separately) **see page 160 for details**
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Size-in	Size-mm	Radius	Lip
14012	4012	9 X 4	229 X 102	¼" (6 mm)	⅝" (16 mm)

Combo Adjust Stainless Steel Walking Edgers

3629

- Made of heavy 16-gauge stainless steel
- Abrasion tests show these edgers will wear twice as long as other stainless steel edgers
- Cast aluminum combo adjust bracket riveted to a welded steel plate
- Use with ***4822*** (**see page 157**) or ***A3001*** brackets (**see page 159**)
- Sold 1 per inner pack/ 1 per outer pack

Walking Edgers

- Made of 16-gauge stainless steel or heavy gauge blue steel
- "B" after part number indicates a blue steel blade
- Slightly convex blade to prevent gouging
- Durable materials and construction mean these edgers will last
- All-angle swivel attachment included
- Helps eliminate bending when edging large areas of concrete
- Use with our ***9*** or ***10*** handle (sold separately) **see page 160 for details**
- Sold 1 per inner pack/ 1 per outer pack

"Broken-In" Magnesium Hand Floats

- Pre-shaped across length and width of blade
- Front and back of blade won't dig in, while sides glide over surface
- Extruded from very hard, durable, lightweight magnesium
- Assists the user in preparing the surface for troweling
- Recommended for use with air entrained concrete
- Choice of resilient DuraSoft® handle or the DuraCork® handle
- Magnesium floats produce a smoother finish than wood
- Sold 6 per inner pack/6 per outer pack

Check Rod Kits

- Available with either aluminum or magnesium blades
- Sharp 90° corners for cutting and filling
- Great for use on highways or industrial slabs where tight flatness tolerances are required
- H-Style design provides more structural strength and straightness (aluminum blades only)
- Features quick disconnecting outriggers on blades 8' (2.4 M) and longer
- Square end check rods measure 4 X 2" (102 X 51 mm)
- Round end check rods measure 5 X 2" (127 X 51 mm)
- Kits include check rod, outriggers on 8' (2.4 M) and longer, three 1¾" X 6' (44 mm X 1.8 M) handles, and bracket
- 8' and longer ship LTL
- Sold 1 per inner pack/1 per outer pack

Double Edge Channel Bull Floats

- Made from the finest extruded magnesium available
- Stiffer and more resistant to warping than standard bull floats
- Sharp edge used for cutting down high spots, rounded edge used for floating
- Outriggers included with ***CB96DE*** & ***CB120DE*** to help keep float square with working surface
- Perfect tool to use when high "F" numbers are required
- ***CB96DE*** & ***CB120DE*** ships LTL
- Sold 1 per inner pack/1 per outer pack, 6 per inner pack/6 per outer pack where noted with *

MARSHALLTOWN® U.S.A. X SUPERIOR MagVibe.com

Gen3 Pro Float™ NEW

- Patent-pending profile takes the place of three floats in one — Bump Cutter, Resin Float and Magnesium Float
- Curved front profile opens concrete and will not dig an edge
- Cutting rear profile seals concrete and cuts down high spots
- Concave edges curl excess concrete back to slab versus onto float surface
- Made from heat treated aluminum alloy extrusion
- Radius ends help eliminate drag lines
- Includes QAS™ quick attach system for use with Gen3 MagVibe Package (***PKG-300MT***)
- Sold 1 per inner pack/1 per outer pack

Curved front profile

Gen3 MagVibe Package NEW

- Die cast aluminum design
- Gear driven pivot allows for easy angle adjustment
- Fully sealed bearings so concrete won't gunk up the mechanisms
- Pivot tensioner allows you to lock the head into position
- Attaches to traditional floats with the QAS™ quick attach system
- Easy to remove with tool-less innovation
- Pole mount fits both 1⅜" and 1¾" button handle poles
- For floats over 10' in length, it is recommended to use additional Gen3 MagVibe units for optimal vibration
- Gen3 Magvibe typical recharge time is 4 hours
- Sold 1 per inner pack/1 per outer pack

180 DAY WARRANTY

on battery, motor, and electronics

1 YEAR WARRANTY

Fresno Trowels

- Superior quality high carbon steel blade
- Round ends leave fewer drag marks
- Use with our ***9*** or ***10*** series handle (**see page 160**) or ***3749*** bull float bracket adapter (sold separately - **see page 160 for details**)
- All-angle swivel attachment included
- Sold 1 per inner pack/1 per outer pack
- Available in inner pack quantities only

QLT Fresno Trowels

- Superior quality high carbon steel blade
- Comes with an all-angle swivel attachment
- "R" at the end of part number indicates rounded ends
- Use with our ***9*** or ***10*** handle (sold separately - **see page 160 for details**) or with our clevis adapters (sold separately - **see page 161 for details**
- Sold 6 per inner pack/6 per outer pack, 1 per inner pack/1 per outer pack where noted with *

Swaged Octagon Handles

- Octagon profile provides an edged surface, greatly increasing grip
- Comfortable grip allows for slip resistance, even with wet or sweaty hands
- Increased grip strength by an average of 20%
- Constructed from aluminum tubing
- Anodized aluminum prevents oxidation from discoloring hands
- Swaged style handle with quick connect snap spring
- Swaged design with tight tolerances reduces sag
- **WARNING:** When using handle extensions, always avoid contact with electrical power lines or any electrical source
- Sold 6 per inner pack/6 per outer pack

MORE GRIP!

U.S. Patent No. 9,643,311

Swaged handle design inserts easily and fits snug to reduce sag

Push Button Adapters

- Allows finisher to use threaded handles on adjustable bracket assemblies requiring a push button attachment
- ***15538*** features a male threaded end
- ***15539*** features a female threaded end
- Sold 6 per inner pack/ 6 per outer pack

EDI	Part#	Size-in	Size-mm	Diameter
15538	15538	10½	267	1¾" (44 mm)
15539	15539	8½	216	1¾" (44 mm)

Push Button Adapters

- ***FT6*** and ***FT6N*** feature a steel clevis end
- "N" after part number denotes a narrower clevis attachment for a tighter fit
- Modifies push button handle sections for use with tools which require a steel clevis end; such as, concrete trowels, walking edgers and groovers, and other tools with "post" type connectors
- ***BF8*** features a threaded male end that modifies push button handle sections for use with tools which require a threaded end such as bull floats, concrete brooms and other tools
- Can be used with our ***PB72*** handle and similar handles (sold separately - **see page 155**)
- Inner and outer pack quantities are shown in table

14819	4819	Male Thread
14820	4820	Female Thread
14821	4821	Post Adapter
14822	4822	Bull Float Adapter
14948	AHK4948*	Adapter Hardware Kit

RotaLeveler™

- Fits all two and four hole bull floats without adapters
- Chain driven
- Features easy control adjustment, smooth operation and a large protected grease reservoir
- Accepts most 1¾" (44 mm) and 1⅜" (35 mm) push button handles without adapters
- Easier to keep clean than most competitors' units
- Sold 1 per inner pack/ 1 per outer pack

MADE IN THE USA WITH GLOBAL MATERIALS

EDI	Part#	Size-in	Size-mm
14801	RL6	N/A	N/A

ROCK-IT™

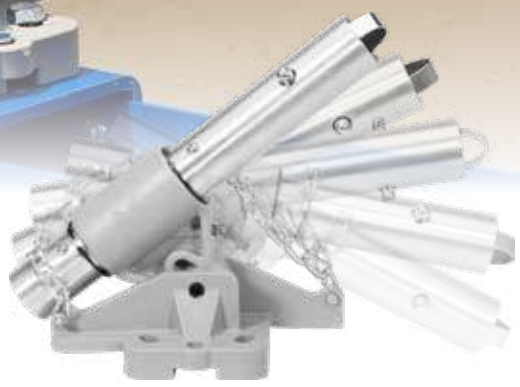
- Allows multi-angle floating
- Enables use with extension handles for extremely long ranges
- Full pitch controlled by half turn of handle
- Fits all magnesium bull floats without adapter plates
- Fits all push button handles 1¾" (44 mm) and 1⅜" (35 mm) without additional adapters
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Size-in	Size-mm
14251	16-RKT-N	N/A	N/A

Eliminator™ - Composite Adapter

- Fits all two and four hole bull floats without adapters
- Composite body is non-conductive
- Features easy control adjustment, smooth operation and a large protected grease reservoir
- Accepts most 1¾" (44 mm) and 1⅜" (35 mm) push button handles without adapters
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Size-in	Size-mm
20015	RED705050	N/A	N/A



Easy control adjustment

ROCK-IT™ 2.0

- Allows multi-angle floating
- Enables use with extension handles for extremely long ranges
- Full pitch controlled by half turn of handle
- Fits all magnesium bull floats without adapter plates
- Fits all push button handles 1¾" (44 mm) and 1⅜" (35 mm) without any additional adapters
- Sold 1 per inner pack/1 per outer pack

Fresno Swivel Bracket

- Fits MARSHALLTOWN and QLT Fresnos
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
WA817	WA817	Fresno Swivel Bracket Replacement

Universal Mounting Plate

- Adapts bull floats and brackets to a two or four hole mounting
- Can be used with MARSHALLTOWN bull float brackets and similar brackets made by others
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
19176	A3008	Universal Mounting Plate

Fresno Bull Float Bracket Adapter

- Bracket will operate a fresno with a bull float bracket
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
13749	3749	Fresno Bull Float Bracket Adapter

Fresno Trowel Adapters

- ***3748*** has rugged aluminum casting
- Designed specifically to connect standard threaded handle sections to a fresno, walking edger or groover or any other tools that are equipped with similar attachment devices
- ***3748*** has unique "wrench-flats" feature for easy removal
- Sold 6 per inner pack/72 per outer pack

EDI	Part#	Description
13748	3748	Molded Aluminum
20067	RED704432	Molded Composite

Tool Weights

- Fits all MARSHALLTOWN and QLT bull floats, blue gliders and fresnos, as well as most other brands
- Sold in pairs, 1 per inner/1 per outer pack

EDI	Part#	Size-lbs	Size-kgs
13869	13869	5-each	2.25-each

Adapters for Multi-Mount Fresnos

- ***3006*** is an all-angle adapter and is used with a clevis end handle
- ***3007*** is the adjustable bracket and is used with a threaded bull float handle
- ***3008*** is the adjustable bracket and is used with a push button bull float handle
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
13006	3006	All-Angle
13007	3007	Adjustable Threaded
13008	3008	Adjustable Push Button
29696	29696	All-Angle Bracket, Base Only
28986	28986	All-Angle Repl. Bracket

Wood Handles

- Wood handles are fitted with a steel clevis
- For use with tools with a clevis-style bracket
- Two sizes to choose from
- "***NW***" and "***NC***" after part number denotes a narrow clevis end for a tighter fit
- ***NW*** is a narrow weld clevis - slightly bendable
- ***NC*** is a narrow cast clevis - stays rigid
- Sold 6 per inner pack/ 6 per outer pack

Funny Trowel Handle Adapters

- Use with our ***9NC*** or ***10NC*** clevis-end handles (sold separately) to turn a concrete finishing trowel into a small fresno
- ***4826*** includes a swivel clevis bracket for all-angle applications
- ***4816*** features two clevis handle mountings
- Sold 6 per inner pack/30 per outer pack

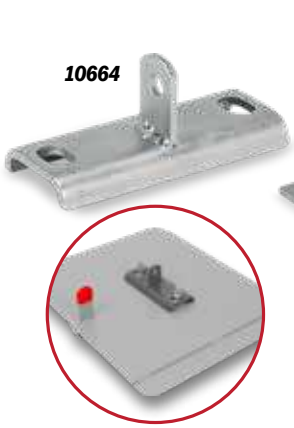
EDI	Part#	Description
14816	4816	Two Clevis Mountings
14817	4817	Single Clevis Mounting
14826	4826	Swivel Clevis Mounting

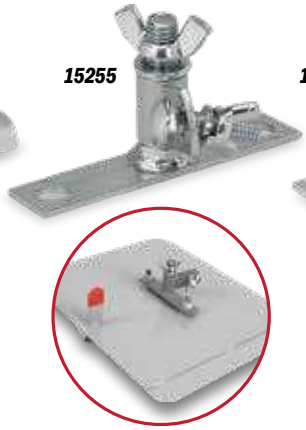
TURN YOUR FINISHING TROWEL INTO A SMALL FRESNO

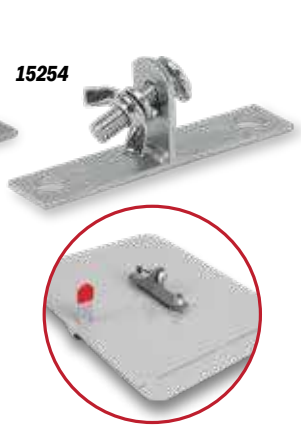
2 Post Clevis Brackets

- Fits all 2-post style tools such as all-steel walking groovers
- Use with our narrow ***9*** or ***10*** series clevis-end handles (sold separately - see previous page for details)
- ***15255*** features a swivel clevis bracket for all-angle applications
- Sold 6 per inner pack/30 per outer pack

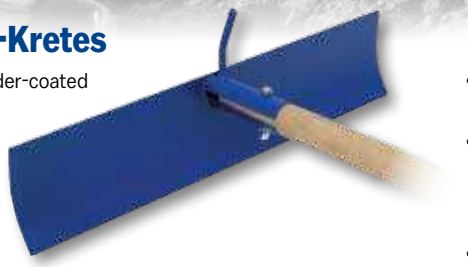
EDI	Part#	Description
10664	10664	Clevis
15254	15254	Flat Clevis
15255	15255	All-angle







Steel Spred-Kretes



- 12-gauge cold rolled powder-coated steel blade
- Must purchase 54 X 1¼" (1372 X 32 mm) wood handle separately
- Sturdy steel ferrule is welded securely to the blade and holds the contoured handle firmly in place
- Superior to a jam type connector
- ***826*** and ***827*** ship unassembled
- Sold 6 per inner pack/6 per outer pack
- ***H826-5*** and ***H827-5*** bulk packs of 32, preassembled with handles

Concrete Spreaders

- Lightweight powder-coated steel placer with rib for extra stiffness
- Ships pre-assembled with 54 X 1⅛" (1372 X 26 mm) wood handle
- Available with or without hook
- Sold 5 per inner pack/ 5 per outer pack
- Must ship LTL
- ***CSHDL*** replacement handle sold 1 per inner pack/ 6 per outer pack
- Available in inner pack quantities only

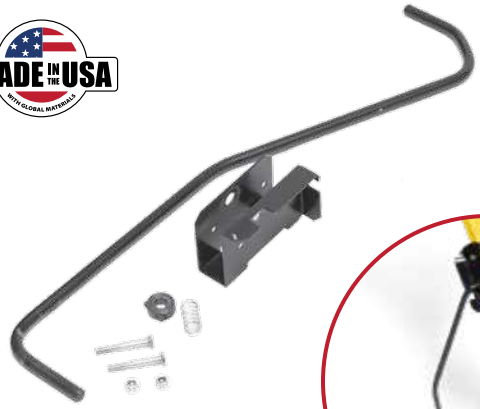
Spin Screed® Display Kit

- Expertly display your Spin Screed® offering in the showroom
- Attach display tube and hang card to the Spin Screed® unit, and keep up right with the Spin Screed® Kickstand (***SPNKS***) for ideal merchandising
- Kit includes:
  - 2' (610 mm) display tube
  - Informational display tube graphics
  - Anti-tear informational hang card
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
32631	SPNDK	Spin Screed Display Kit

Spin Screed® Kickstand

- Keeps Spin Screed® upright and elevated when not in use
- Robust construction for maximum durability
- Includes mounting bracket used to attach Kickstand to Spin Screed® units
- Sold 1 per inner pack/1 per outer pack



EDI	Part#	Description
28699	SPNKS	Spin Screed Kickstand

Bypass Support System Chairs

- Section off big pours to easily screed form-to-rail or rail-to-rail
- Used with ¼" (6 mm) Screed Rail to reduce required fill by 85% versus 1½" (38 mm) pipe-style screed rail systems
- Double profile (¼ & ½" gap) fits a single rail or two rails side by side extending your pour
- Yellow polypropylene construction
- Includes 1 driver ***SPNDTSP***
- Sold 1 per inner pack/ 1 per outer pack

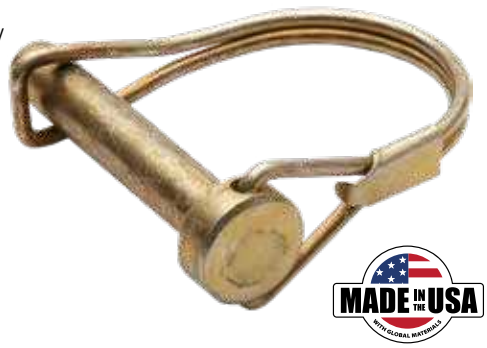
Quick Disconnect Pin

- Used on Dead End of Spin Screed® allowing the T-Handle to stay fastened securely
- Sold 1 per inner pack/ 1 per outer pack



EDI	Part#	Description
28748	SPNQDP	Quick Disconnect Pin

Dead End T-Handle

- Used on Dead End of aluminum pipe
- Easily connects and disconnects with Quick Disconnect Pin ***(SPNQDP)***
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28698	SPNDH	Dead End T-Handle

Live End Replacement Universal Joint

- Easily threads into Live End allowing for quick connection to Spin Screed® Power Unit
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28745	SPNLER	Live End Replacement Universal Joint

Circular Pour Pivot Point Adapter

- Used on circular pours, attaches to Spin Screed® Dead End
- Easily adjusts to change height for any pour
- Grease zerk for quick maintenance
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28732	SPNPPA	Circular Pour Pivot Point Adapter

Dead End Replacement Bearing with Quick Disconnect Pin

- Allows Dead End T-Handle attachment to be secured to the Dead End with quick disconnect pin
- Has grease zerk for quick maintenance
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28746	SPNDER	Dead End Replacement Bearing with Quick Disconnect Pin

Live End Steep Slope Cable Adapter

- Used on the same end as the Spin Screed® Power Unit
- Has bearing with Quick Disconnect Pin to allow users to connect Rope Quick Coupling ***(SPNRQC)*** for guidance down steep inclines
- Grease zerk for quick maintenance
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28743	SPNLESSA	Live End Steep Slope Cable Adapter

Valley Insert Assembly

- Can be installed in any Spin Screed® pipe in order to create concrete having a valley in the center of the pour
- Slabs up to 40' wide or more with various amount of swales can be created using this insert in conjunction with the Green Chairs (sold separately) **see page 168 for details**
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28731	SPNVIA	Valley Insert Assembly

Rope Quick Coupling

- Designed to connect to Spin Screed® Dead End with Quick Disconnect Pin ***(SPNQDP)***
- Used in place of Dead End T-Handle attachment
- Use with Live End Steep Slope Cable Adapter ***(SPNLESSA)*** for guidance down steep inclines
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description	Length
28747	SPNRQC	Rope Quick Coupling	6' (1.8 M)

18V Battery 2-Pack

- For use with Spin Screed® cordless unit
- 18V 5.0Ah Makita® batteries
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28670	SPN18VBAT	18V Battery 2-Pack

Dual Battery Charger

- For use with Spin Screed® cordless unit
- Charges 2 18V 5.0Ah Makita® batteries at once
- Estimated charge time: 30 minutes
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28671	SPN18VCHGR	Battery Charger

Pervious Concrete Joint Cutter

- Used to tool joints after the pervious concrete has been compressed with a cross roller
- Provides an easy way to joint concrete in a timely manner
- Use with 1¾" (45 mm) push button handle
- Cuts 1½" groove depth
- Must ship LTL
- Dimensions: 60' X 36 X 24" (1524 X 914 X 610 mm)
- Weight: 201 lbs (91 kg)
- Sold 1 per inner pack/ 1 per outer pack

EDI	Part#	Description
28733	SPNPCJ	Pervious Concrete Joint Cutter

Pervious Concrete Cross Roller

- Designed for pervious concrete to provide mild compression and remove surface flaws
- Use with 1¾" (45 mm) push button handle
- Must ship LTL
- Dimensions: 44 X 18 X 11" (1118 X 457 X 25 mm)
- Weight: 65 lbs (29 kg)
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28734	SPNPCCR	Pervious Concrete Cross Roller

Wall Hugger Insert

- Can be installed on any Spin Screed® aluminum pipe so that concrete can be screeded within ⅜" (10 mm) of existing wall
- Excellent in basement and limited space pours
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
28730	SPNWHI	Wall Hugger Insert

Shockwave™ 2.0 Power Screed NEW

- Less labor intensive than a traditional hand screed
- Consolidates concrete, resulting in a stronger slab
- Excellent vibration dampening (little vibration passed on to operator)
- Throttle lever does not require constant contact
- Direct drive shaft for extended life (no bending in shaft between motor and eccentric weight)
- Fully adjustable handlebars and grips
- Onboard hour meter (great for rental and scheduled maintenance)
- Bolt-on kickstand keeps unit upright when not in-use
- Forward mounting 9" (229 mm) hole spacing is compatible with most competitor power screed blades
- Unique frame design provides superior engine protection and makes for easy transportation
- 4-stroke Honda® GX35 engine
- Sold 1 per inner pack/1 per outer pack, 6 per inner pack/ 6 per outer pack where noted with *

Screed Shaker™

- Attaches to wooden 2 X 6" (51 X 152 mm) board up to 16' (4.9 M) long and metal screed boards up to 20' (6.1 M)
- Adjusts to any screed board 2" (51 mm) thick or less
- Levels concrete quickly and easily
- Allows a stiffer mix of concrete to be poured, resulting in a stronger slab
- Brings more cream to the surface making finishing easier
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
10459	SV459	Screed Shaker

Ezyscreed™ Combo Screed

- Lightweight aluminum construction
- Can be used as a screed, float or check rod
- Dual-edge design, sharp edge for cutting and round edge for floating concrete
- Attach handle to the bottom side of screed for double the life
- Ridges in heavy-duty handle increase strength and grip
- Ezyrack holds 12 Ezyscreeds of any size
- Ships LTL (shown in table with *)
- NEW items shown red in table
- Sold 1 per inner pack/ 1 per outer pack

Built-in Level

Lightweight aluminum construction

Dual-edge design has a sharp edge for cutting and a round edge for floating concrete

Broom-Float Adapter Bracket & Brooms

- This bracket attaches to a float to position and pull back a broom during the final finishing step on large concrete slabs
- Eliminates reaching and lifting
- Brooms available from 36 to 72" (914 to 1829 mm)
- Bracket can be used with flat wire brooms
- Bracket includes attachments for bull floats, blue gliders, and multi-mount fresnos
- For the best finish, broom or flat wire texture broom should extend beyond float on both sides
- Brooms can be used separately by using ***6516*** adapter (sold separately) **see page 180**
- Sold 1 per inner pack/1 per outer pack, 6 per inner pack/6 per outer pack where noted with *

See Bull Floats starting on page 136 (sold separately)

Threaded Handles

- For details **see page 154**

Clevis Wood Handles

- Wood handles are fitted with a steel clevis
- For use with tools with a clevis-style bracket
- For details **see page 160**

Flat Wire Brooms

- Machined aluminum tubing will not warp or crack
- Steel tines provide stiffness for grooving while flexing for durability
- Intended for providing a uniform groove in concrete roadways, bridges and ramps for drainage and traction
- Comes with threaded handle adapter installed; adapter can be removed for use with clevis end handle
- Tines are 5" (127 mm) long and ⅛" (3 mm) wide
- Replacement tines come 10 per bag
- Other spacings available by special order including random spacing to meet many state highway specifications; please call customer service for special order requirements
- Sold 1 per inner pack/1 per outer pack

Utility Mixers 300DD

- Quality Utility Mixer perfect for batching concrete, mixing seed and feed as well as numerous industrial applications
- Available with steel drum or FDA / NSF / USDA approved non-stick polyethylene drum
- Quiet, heavy-duty worm drive gearbox
- Convenient drum lock secures the drum in one-of-five positions
- Well-balanced tilt handle
- Tubular steel frame with maintenance-free bearing
- Sold with or without a ½ HP electric motor
- Dual mixing system utilizes a two piece replaceable blade system to create a more consistent mix
- Convenient on/off switch standard with motor
- Hand tow kit option available
- All mixers produce 1 batch per minute
- Drum opening of 15¼" (381 mm), depth 24¾" (629 mm)
- Discharge height of 20" (508 mm) or 22¾" (578 mm) with tow kit
- 3 cubic foot batch size, 5½ cubic foot drum volume
- Overall dimension of 31½ X 35½ X 50" (800 X 902 X 1270 mm) (drum facing down)
- 25 RPM drum rotation
- Ships LTL

Steel Drum Concrete Mixers 600CM

- 6 cubic foot mixing capacity
- Reinforced square tubular frame with a welded steel yoke
- Wheel and hand brake tilting mechanism
- Drum tilt wheel rotates the drum in infinite mixing positions – moves in the same direction as the drum
- Frictional hand brake locks the drum in place at any position
- Cast iron ring gear and tapered roller bearings for smooth performance
- Quad-Mixing System utilizes a four-piece, replaceable paddle and blade combination that creates four different mixing patterns for a more consistent mix
- High-speed tow kit standard with 13" (330 mm) wheels and 25" (635 mm) O.D. tires
- Discharge height of 26" (660 mm)
- Drum opening of 18" (457 mm)
- 25 RPM drum rotation
- Choose between 2" ball or pintle-style hitch
- Ships LTL

MADE IN THE USA

Reinforced square tubular frame with a steel channel yoke

Quad-Mixing System utilizes a four-piece, replaceable paddle and blade combination

Tilt wheel mechanism rotates the drum in infinite mixing positions. Frictional hand brake locks the drum in place at any position

Poly Drum Concrete Mixers 600CM-PL

- 6 cubic foot mixing capacity
- Steel drum encases the poly liner for added durability and can be quickly disassembled for replacement
- FDA / NSF / USDA approved non-stick polyethylene drum
- Sturdy in-mold mixing blades
- Reinforced square tubular frame with a welded steel yoke
- Wheel and hand brake tilting mechanism
- Drum tilt wheel rotates the drum to infinite mixing positions – moves in the same direction as the drum
- Frictional hand brake locks the drum in place at any position
- Cast iron ring gear and tapered roller bearings for smooth performance
- High-speed tow kit standard with 13" (330 mm) wheels and 25" (635 mm) O.D. tires
- Discharge height of 26" (660 mm)
- Drum opening of 18" (457 mm)
- 25 RPM drum rotation
- Choose between 2" ball or pintle-style hitch
- Ships LTL

900CM Steel Drum Concrete Mixer

- Mixes 9 cubic feet of material, up to twenty 60 lb bags of pre-mixed concrete
- Hydraulically driven, resulting in significantly less maintenance due to the elimination of many parts such as belts, pulleys, chains, and sprockets
- Hydraulic drive does not require lubrication for the life of the product
- Hydraulic lever conveniently controls start/stop and forward/reverse of drum rotation
- Wheel and hand brake tilting mechanism
- Oversized hand wheel makes discharge quick and easy
- Drum tilt wheel rotates the drum in infinite mixing positions - allows for discharge on either side of mixer
- Frictional hand brake locks the drum in place at any position
- Quad-Mixing System utilizes a four-piece, replaceable paddle and blade combination that creates four different mixing patterns for a more consistent mix
- High-speed tow kit standard with 13" (330 mm) wheels and 25" (635 mm) O.D. tires
- Discharge height of 22¼" (565 mm)
- Drum opening of 21½" (546 mm)
- Choose between 2" (51 mm) ball or pintle-style hitch
- Powered by reliable and efficient 8HP engine
- Ships LTL

Wheelbarrow Mixers

- Lightweight portable mixer weighs only 110 lbs (50 kg) with pedestal
- 3 cu ft (0.085 m3) mixing capacity
- 5.65 cu ft (0.16 m3) total drum capacity
- High torque ½ HP electric motor with ON/OFF switch
- CE and CSA approved electric motors
- The USA plug mixer is 5.3 amps, The UK and France mixers are 2.8 amps
- Pedestal included, perfect for dumping into forms, wheelbarrows and buckets
- Rugged 24" (610 mm) steel drum
- 10" (254 mm) flat free rubber tires
- Direct drive gearbox - easy to assemble, no belts or pulleys
- Spins at 28 RPM
- Can clear a 30" (762 mm) door opening
- 24" (610 mm) dump height with stand
- Replacement parts available
- Sold 1 per inner pack/ 1 per outer pack
- Ships LTL

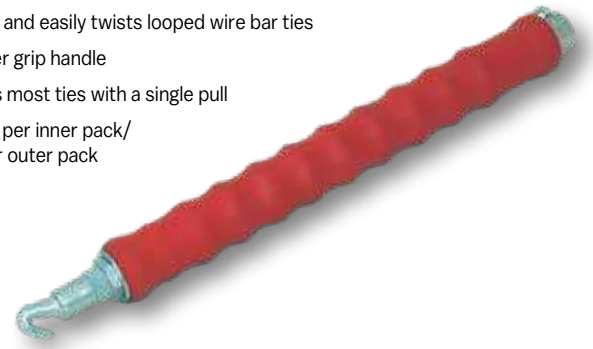
Pull Tie Wire Twister

- Safely and easily twists looped wire bar ties
- Rubber grip handle
- Twists most ties with a single pull
- Sold 1 per inner pack/ 50 per outer pack



EDI	Part#	Size-in	Size-mm
12637	12637	12	305

Tie Wire Twister

- Compact size allows the tool to be used in tight spaces
- Safely and easily twists looped wire bar ties
- Durable design
- Sold 24 per inner pack/ 24 per outer pack

EDI	Part#	Description
14731	14731	Standard
14171	14171	Heavy-Duty

Tie Wire Reels

- ***TWR26*** is made of lightweight, durable plastic, ***TWR19*** is constructed of lightweight aluminum
- Fits any standard size belt
- Accommodates all types of tie wire
- Sold 6 per inner pack/6 per outer pack

EDI	Part#	Description
16019	TWR19	Aluminum
16026	TWR26	Plastic

HIT® Heavy-Duty Bolt Cutters

- For general cutting of medium steel and soft bolts, rods and chains
- Cuts metal with a hardness rating up to Brinell 400/Rockwell C42
- Heavy-duty drop forged cutting jaws with precision cutting edges for long life
- Replacement heads available
- All items and replacement parts sold 1 per inner/1 per outer pack

Power Trowels

- Available with rapid pitch handle for quick changes in blade pitching or an infinitely variable fine tuning knob style pitching handle
- Robust pitching collar makes for more stable operation & longer bushing and bearing life
- Dependable gearbox design that maximizes torque transfer
- Centrifugal clutch for smooth startup and speed transitions
- Lifting hook allows for safe transportation and easy pick-up
- Edger gets within 5/16" (8 mm) of walls with blades
- Four blade design
- Max Blade RPM: 130
- Safety switch increases protection
- Service door simplifies maintenance by allowing access to blades and other lower end components
- Combination blades included
- Must Ship LTL
- Sold 1 per inner pack/1 per outer pack

Z Clip Power Trowel Pans

- Edge is beveled to prevent the pan from digging into the concrete
- Has a ⅛" (3 mm) rise from center of pan to edge of pan
- Made from rugged 10-gauge steel for optimal life
- Blade attachments are dual-directional (except for 24" pans)
- Powder-coated pans provide rust protection prior to use
- 24", 30", 36" and 42" pans can be used on "Walk-Behind" and non-overlapping "Ride-On" power trowels
- 44", 45", 46", 48", 60" and 62" pans are intended for non-overlapping "Ride-On" power trowels only
- ***PAN46-3C*** has only 3 sets of clips and is for a 6-blade machine
- 59¼" pans are 6 blade only
- 62" pans are 5 or 6 blade configurations
- Edger pan with 90° lip
- Edger pans are noted with an "E" in the part number and are 13-gauge steel
- Sold 1 per inner pack/1 per outer pack

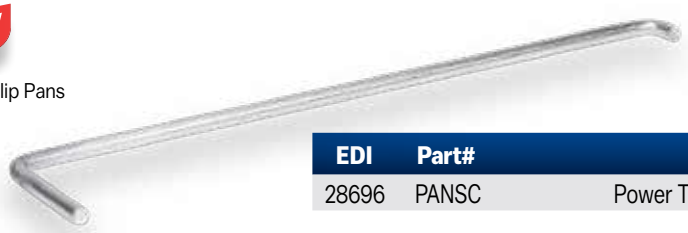
Pan Safety Clip NEW

- Replacement rod for Power Trowel Safety Clip Pans
- Steel zinc-coated construction
- Sold 1 per inner pack/1 per outer pack



EDI	Part#	Description
28696	PANSC	Power Trowel Pan Safety Clip

80° Lip Pans

- Safety Clip and Z Clip options available
- Edge is beveled to prevent the pan from digging into the concrete
- Flat pans have a 0 to ⅛" (3 mm) rise from center of pan to edge of pan
- Dished pans have between a ¼" (6 mm) and ⅜" (9 mm) rise from center of pan to edge of pan
- Made from rugged 10-gauge steel for optimal life
- 59¼ & 62" safety clip pans are for 6-blade machines, but have 3 sets of clips
- Sold 1 per inner pack/1 per outer pack
- Sold in packs of 10 were noted with *

MADE IN THE USA WITH GLOBAL MATERIALS

Perma-Cast® Sierra Stains

- Concrete stains are a penetrating, reactive stain that chemically combines with cured concrete to produce permanent variegated coloring effects. Because there are so many variables involved in the chemical reaction process Perma-Cast® Sierra Stain produces unique results. Wide color variations, mottling, and unevenness of the color are normal and usually desired. If these coloring effects are not desired, Sierra Stain should not be used.

  - Stains are only available as a case of 4-1 gallon (3.8 L) bottles
  - No broken cases will be processed
  - Coverage is approximately 300 sq ft per gallon Stains ship LTL hazardous
  - Sold 1 per inner pack/1 per outer pack

Elements™ Concrete Stains

- Butterfield Color® Elements™ Transparent Concrete Stain represents the latest in nanopigment technology. It is formulated to readily permeate the concrete surface and create translucent color variations similar to reactive acid stain It is a penetrating, non-film forming stain for existing concrete surfaces. It is resistant to fading from sunlight. It can be used on interior concrete floors and exterior concrete hardscapes. It may also be applied to concrete blocks, pavers, and cementitious overlays. Elements™ is a low odor, water-based staining system which contains no acid. This product requires specific surface preparation including the use of CHO Concrete Cleaner (**page 229**). The cleaner is a highly concentrated citric acid base which is used to open the pours on the surface of the concrete in order to allow the Elements stain to penetrate properly.

T1000® Stampable Overlay

- Designed for resurfacing structurally sound, non-moving concrete floors and exterior hardscapes
- The overlay provides a durable surface suitable for stamping
- Ideal for restoring worn or color blemished concrete, out of level surfaces or correcting construction errors.
- Packaged in 55 lbs (24.9 kg) bag
- Coverage is 24 sq ft at ¼" (6 mm) thick, 16 sq ft at ⅜" (10 mm) or 12 sq ft at ½" (13 mm) thick per 55 lb (24.9 kg) bag
- **WARNING:** White overlay products will produce more vibrant variations of the colors shown on the color charts. Produce an on-site sample to ensure the desired look.
- Color with Uni-Mix® color packs (sold separately)
- Additional products needed for completion of this project: T1000® Primer (**page 230**), Perma-Cast® Antiquing and Liquid Release (**page 228 - 229**)
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
18257	STAMPOVERLAY	Stampable Overlay
18002	T1MSTAMPOLW	T1000 Stampable Overlay-White

Step 1: Surface Prep

- Proper surface preparation is critical to the application of all overlay products. Ensure that the surface is free of all potential bond breakers and mechanically scar the surface if materials can't be removed with ease. Patch all cracks using T1000® overlay mixture using a maximum of ½" (13 mm) lifts.

Step 2: Priming the Surface

- Mix one gallon (3.8 L) of water with one gallon of T1000® Primer. Apply an even coat to the surface of the concrete using a paint roller, soft push broom, squeegee, or sprayer. Once the primer has dried to a tack-free state, installation should begin

Step 3: Mixing

- Add 3.7 (3.5 L) quarts of water to a 5 gallon (18.9 L) bucket, slowly mix in color pack, and then add the entire 55 lb (25 kg) bag of T1000® Stampable Overlay. Continue to mix for approximately 3 minutes or until a lump-free, streak-free consistency is achieved.

Step 4: Installation

- Using a trowel or gauge rake, apply material with an even thickness that is equal to the depth of the grout lines of the stamp you've selected. Ensure that you keep a wet edge to prevent cold joints. After approximately 20-60 minutes, depending on conditions, the overlay should be ready to stamp. Mix powder release with liquid release (¼ cup to 1 gallon, 237 ml to 3.785 L). Apply an even coat of clear liquid release prior to stamping.

Step 5: Wrapping Up

- Following stamping the overlay should be allowed to cure for at least 24 hours. Apply a thin coat of Clear Guard™ Cure and Seal. Apply a final coat of sealer to ensure a long lasting surface.

Uni-Mix® Color Packs

- 1 bag of colorant is required per 1 cubic yard of cement

Flat Out® Countertop Mix

- Designed for quick production and pre-casting of countertops, concrete panels, and other architectural precast shapes and pieces
- Fast, quick-setting, 2 component mix
- Can be de-molded in as little as 3 hours and polished within 8 hours of pouring
- 28 day compressive strength of 11,000 psi
- Can be colored by adding Uni-Mix® Color Packs to mix (sold separately, **see page 223**)
- Dry mix is packaged in 55 lb bags and liquid polymer is packaged in 5 gallon pails. One pail of polymer yields enough material for approximately 6 bags of countertop mix.
- One bag of countertop mix requires 3.25 quarts of polymer to yield 0.42 cubic feet or approximately 5 square feet at 1" thick

EDI	Part#	Description
18904	FOPOLY5	Flat Out Polymer (5 gal)

Step 1:

- Level casting table. Flat Out® is a self-consolidating mix. If the casting table is not uniformly level in all directions the Flat Out® will flow to one direction and out of your mold.

Step 2:

- Flat Out® will pick up and transpose any imperfections on your casting table and mold. Use a combination of dish soap and water to clean the surface and make sure there are no scratches or cuts in the surface of the casting table or mold.

Step 3:

- The mixing ratio is 3.25 quarts of Flat Out® Polymer to one 55lb bag of Flat Out® Countertop Mix. First add 2.75 quarts of Flat Out® Polymer to a clean 5 gallon bucket, retaining the additional ½ quart of polymer for later addition. If color is to be added, a Uni-Mix® Color Pack should be added to the 2.75 quarts of Polymer at this time and mixed with a 600 rpm drill. After the Polymer and Color Pack have been thoroughly mixed, slowly add the 55 lb bag of Flat Out® Countertop Mix. Mix for two minutes then add the additional ½ quart of polymer and mix for an additional one minute.

Step 4:

- Pour Flat Out® mixture into mold. Flat Out® is self-consolidating and requires no troweling or finishing. The surface of the casting table is the finished side. Wear latex gloves and use finger tips to move material into place and help consolidate and level the mix. If the countertop requires more than 1 bag of material, have all components pre-measured. All batches must be placed within 5 minutes of each other to ensure material bonds properly. Once the mold is full and consolidated, cover with a piece of foam insulation. This will help keep the heat inside the mold and allow for a better cure.

Step 5:

- Piece may be demolded after 3 hours of cure time at 70° Fahrenheit. At lower temperatures, the demolding time is extended. Gloves should be worn when handling any finished pieces as the edges may be sharp and to avoid oil from your skin discoloring the finish before sealing. See Flat Out® Countertop Mix Tech Data for Finishing and Maintenance Instructions.

T1000® Sprayable Fine Overlay

- Designed for resurfacing structurally sound, non-moving concrete floors, walls and exterior hardscapes
- Can be smooth troweled, broom finished or applied using a splatter brush or hopper gun for a knockdown finish
- Packaged in 55 lbs (24.9 kg) bag
- Coverage is 96 sq ft at 1/16" (1.6 mm) thick or 32 sq ft at 3/16" (4 mm) thick per 55 lb (24.9 kg) bag
- **WARNING:** White overlay products will produce more vibrant variations of the colors shown on the color charts. Produce an on-site sample to ensure the desired look.
- Color with Uni-Mix® color packs (sold separately, **see page 223**)
- Sold 1 per inner pack/1 per outer pack

EDI	Part#	Description
18260	SPRAYOVERLAYF	Sprayable Fine Overlay

Step 1: Surface Prep

- Proper surface preparation is critical to the application of all overlay products. Ensure that the surface is free of all potential bond breakers and mechanically scar the surface if materials can't be removed with ease. Patch all cracks using T1000® overlay mixture using a maximum of 3/16" (4 mm) lifts.

Step 2: Mixing

- Add 4.4 quarts (4.7 L) of water to a 5 gallon (18.9 L) bucket, slowly mix in color pack, and then add the T1000® Sprayable Fine Overlay. Continue to mix for approximately 3 minutes or until a lump-free, streak-free consistency is achieved.

Step 3: Base Coat

- If stencils are used and a contrasting grout line is desired, skim coat a 1/16" (1.6 mm) thick layer of T1000® Sprayable Fine Overlay prior to placing stencils. Allow adequate drying time after application prior to placing stencils (approximately 2-8 hours).

Step 4: Laying Out Stencil

- Lay out the entire project prior to sticking the stencils in place. This will ensure that your layout is correct. Once final positioning has been determined apply the stencil to the surface.

Step 5: Applying the Material

- T1000® Sprayable Fine Overlay is applied using a hopper gun. Simply spray the material on and create the desired finish using a knockdown knife, trowel, or texture skin Allow enough set time to prevent chipping. The final step is to remove stencils. Allow to dry thoroughly and then seal.

WARRANTY DISCLAIMER/LIMITATION OF LIABILITY: MARSHALLTOWN makes no warranties regarding this product, express or implied, including warranties of fitness for a particular purpose or merchantability. MARSHALLTOWN, its directors, officers and employees shall not be liable for indirect, special or consequential damages or personal injury arising out of the use or handling of this product whether or not it has been advised of the possibility of such a loss or damage. Purchaser assumes all liability for the use and handling of this product including any injury to third parties. MARSHALLTOWN maximum liability shall be the price of the product.

Uni-Mix® Integral Concrete Colorants

- Integral colorant is added directly to the truck while the concrete is mixing. In the event that cracks or chipping occur this ensures that there is a consistent color throughout the slab. Select 5 or 6 sack mix based on the cement content of your concrete. 6 sack = 564 lbs (256 kg) of cement per cubic yard (4,000 psi mix). 5 sack = 470 lbs (213 kg) of cement per cubic yard (3,500 psi mix). You should always consult with your concrete provider to become familiar with their policies and any additional fees before proceeding with this method.
- Simply add 1 bag per yard of concrete. The cement content of your concrete will dictate whether a 5 or 6 sack mix is appropriate. Sold 1 per inner pack/1 per outer pack.

Step 1: Coloring the Concrete

- The integral colorant is added directly to the load while it is mixing in the truck. Our integral products come in dissolvable pre-measured bags ensuring consistency and reducing the hassle and the mess. Simply roll the concrete to the top of the truck, add one bag per yard of concrete into the mixer, packaging and all, and mix for 110 revolutions (approx. 5 minutes).

Step 2: Working the concrete

- The initial leveling is performed using a screed. A concrete tamper is then used to push the larger aggregate down while working the cream to the surface, allowing smoother finishing and stamping. At this point the slab should be bull floated and initial edging can start. Using a fresno is the final stage before using release and beginning stamping.
- ***Note:*** The use of a fresno should be avoided if freeze-thaw is an issue. Instead, the final finish should be performed with a wood or magnesium bull float.

Step 3: Release

- The release agent should be evenly cast onto the surface. Stamps should also be coated with release powder to increase effectiveness. The release serves dual purposes; it reduces the bonding that would occur between the concrete and the stamp, and it adds the contrast that creates the depth and texture of natural stone.

Step 4: Stamping

- Set the first mat and make sure every other mat is set tight, preventing extra wide grout lines and reducing touch up work. Use a hand tamper to ensure the complete transfer of the pattern. Flex mats and skins are used to transfer patterns in the areas that require less than a full stamp. It may be necessary to touch up some of the joints using a chisel or roller before the concrete has dried.

Step 5: Finishing Up

- T1000® Sprayable Fine Overlay is applied using a hopper gun. Simply spray the material on and create the desired finish using a knockdown knife, trowel, or texture skin Allow enough set time to prevent chipping. The final step is to remove stencils. Allow to dry thoroughly and then seal.

Perma-Cast™ Shake-On Color Hardeners

- Color hardener is a powder that is applied to the surface of the concrete. As the name indicates it serves two purposes; it colors the concrete but also hardens the surface. This application is best used in high traffic areas and areas where freeze-thaw issues might arise and is ideal for smaller applications.

Coverage is approximately 100 sq ft (9.29m2) per 50 lb (22.6 kg) pail. Perma-Cast™ Shake-On Color Hardener is packaged in a 50 lb (22.6 kg) plastic pail. Sold 1 per inner pack/1 per outer pack.

Step 1: Working the Concrete

- The initial leveling is performed using a screed. A concrete tamper is then used to push the larger aggregate down while working the cream to the surface, allowing smoother finishing and stamping. At this point the slab should be bull floated and initial edging can start.

Step 2: Coloring the Concrete

- After letting most additional bleed water evaporate, the color hardener is applied. This consists of simply casting 75-80% of the colorant powder onto the surface. Once the surface is completely covered, troweling and final edging should be done. Repeat the process of using the remaining 20-25% of colorant powder. Using a fresno is the final stage before using release and beginning stamping.
- ***Note:*** The use of a fresno should be avoided if freeze-thaw is an issue. Instead, the final finish should be performed with a wood or magnesium bull float.

Step 3: Release

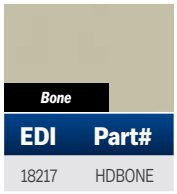
- The release agent should be evenly cast onto the surface. Stamps should also be coated with release powder to increase effectiveness. The release serves dual purposes; it reduces the bonding that would occur between the concrete and the stamp, and it adds the contrast that creates the depth and texture of natural stone.

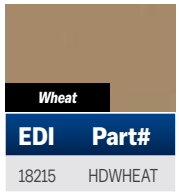
Step 4: Stamping

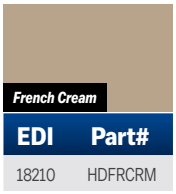
- Set the first mat and make sure every other mat is set tight, preventing extra wide grout lines and reducing touch up work. Use a hand tamper to ensure the complete transfer of the pattern. Flex mats and skins are used to transfer patterns in the areas that require less than a full stamp. It may be necessary to touch up some of the joints using a chisel or roller before the concrete has dried.

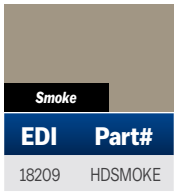
Step 5: Finishing Up

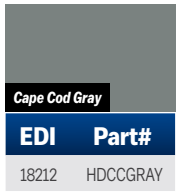
- After the concrete has cured sufficiently, typically 1-2 days, the surface should be pressure washed to remove excess release powder. The goal is to leave enough release to give you the desired color and contrast for the project. The look of wet concrete will closely resemble the finished product. The concrete should be allowed to dry thoroughly and then be sealed.

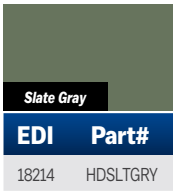


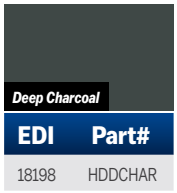


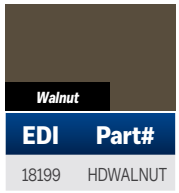


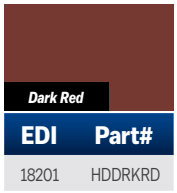


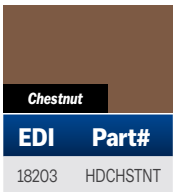












Color chart may vary from actual color due to printing, lighting, application and/or usage.

IMPORTANT NOTICE: This information should only be used as a general overview. MARSHALLTOWN cannot address every installation's circumstances and requirements. Always consult and follow all local, state and federal guidelines.

WARRANTY DISCLAIMER/LIMITATION OF LIABILITY: MARSHALLTOWN makes no warranties regarding this product, express or implied, including warranties of fitness for a particular purpose or merchantability. Purchaser assumes all liability for the use and handling of this product including any injury to third parties. MARSHALLTOWN maximum liability shall be the price of the product.

Perma-Cast™ Antiquing Release Colors

- Release is dusted over the surface of freshly colored concrete flatwork before using a pattern-stamping tool. The release agent prevents the tool from sticking to newly colored, freshly stamped concrete. As the tool is pulled from the concrete the colored release powder is layered into the textured surfaces of the concrete. Upon washing and sealing, the difference in color between the underlying concrete and the release creates a visually attractive, antiqued look to the concrete.
- Perma-Cast™ Antiquing Release is packaged in a 30 lb (13.6 kg) plastic pail
- Coverage is approximately 1000 sq ft per 30 lb (13.6 kg) pail
- Sold 1 per inner pack/1 per outer pack

CHO™ Cleaner

- CHO™ Cleaner removes efflorescence effortlessly
- Ideal for cleaning and preparing concrete, before staining, sealing or overlaying
- Leaves an etched surface which allows for improved penetration of topically applied coloring materials and sealers, and better adhesion of overlays
- Mix 1 lb (.45 kg) of CHO™ Cleaner with 1 gal (3.8 L)of water
- 1 gal (3.8 L) of solution will clean approx. 100-150 sq ft
- Read the technical data sheet before using
- Sold 1 per inner pack/1 per inner pack.

Clear Guard® Pro 350® Cure and Seal

- Formulated for regions that require less than 350 g/L VOC
- A solvent-based, curing and sealing compound suitable for residential, commercial and municipal concrete surfaces
- Provides excellent color enhancement and protection for decorative concrete
- Non-yellowing seal for new and old concrete surfaces
- Available in 5 gallon (19.0 L) pails
- Dries to high gloss, UV stable film
- Contains no acetone or TBA
- Sold 1 per inner pack/1 per outer pack

Clear Guard® Cure & Seal

- Clear Guard® Cure & Seal is a solvent based, non-yellowing, architectural grade, Methyl Methacrylate Acrylic copolymer. The product is formulated for curing and sealing any concrete, but it is specifically designed for concrete that is colored with Uni-Mix® or Perma-Cast™ coloring systems.
- Clear Guard® Cure & Seal should be applied using solvent resistant short nap rollers, hand held pump sprayers or airless sprayers
- 5 gallons (18.9 L) of Clear Guard® Cure and Seal covers approximately 1000 sq ft (93 sq M) for curing or 1000-1600 sq ft (93-149 sq M) for sealing
- ***Note: SLRCLEAR*** not available in the following states/locations: CA, CT, DE, District of Columbia, ME, MD, MA, NH, NJ, NY, PA, RI, VT, VA (consult and follow Consumer Product VOC Regulation for specific counties)
- Sold 1 per inner pack/1 per outer pack

308S Industrial Concrete Sprayer NEW

- Sprays concrete sealers, curing agents, form oils and more
- Sprays up to 35% solids
- Fully equipped with high-quality Viton™ seals for long life and superior resistance to solvents and chemicals
- Epoxy-lined tank protects against impact, rust, and tainting
- Features a wide neck for easy filling, a heavy-duty flexible hose, and an ergonomic cast carry/pump handle
- Supplied with quality brass parts including heavy-duty trigger assembly, precision nozzle fittings, and wand fittings
- Inner/outer pack quantities listed in table

Adjustable Squeegee Trowels

- Adjust the pitch 35˚ in either direction
- Used with overlays to remove lines
- For details and size options **see page 366**

Quik-Mix Mixers

- Blade is securely welded to ⅜" (10 mm) hex shaft
- Saves time and energy
- Ideal for stirring concrete overlays
- For details and size options **see page 337**

SharpShooter® 2.1 Hopper Gun

- Specifically formulated nylon gun
- Seven orifice sizes
- Tight sealing flow shutoff prevents leakage
- Easy pull swing trigger for greater control and less fatigue
- For details **see page 372**

Masonry Brushes

- Ideal for broadcasting release for decorative concrete applications
- For details and size options **see pages 311 - 313**

Portable Asphalt Melter/Applicator

- Does the work of both a melter and a pour pot all in one machine
- Comes complete with hand agitator, temp gauge, torch head, hose, regulator, propane bottle holder, spark ignitor and hinged fill lid
- 14-gauge double wall steel construction with vent holes
- Will provide hot material in just minutes
- Melts blocks of hot asphalt crack filler
- ¼" (6 mm) thick, 11" (279 mm) rear steel wheels for easy maneuvering
- Dual levers allow the operator to control the shoe and flow valve with one hand
- 10 gallon capacity
- Replacement parts available
- Propane bottle not included
- Sold 1 per inner pack/1 per outer pack

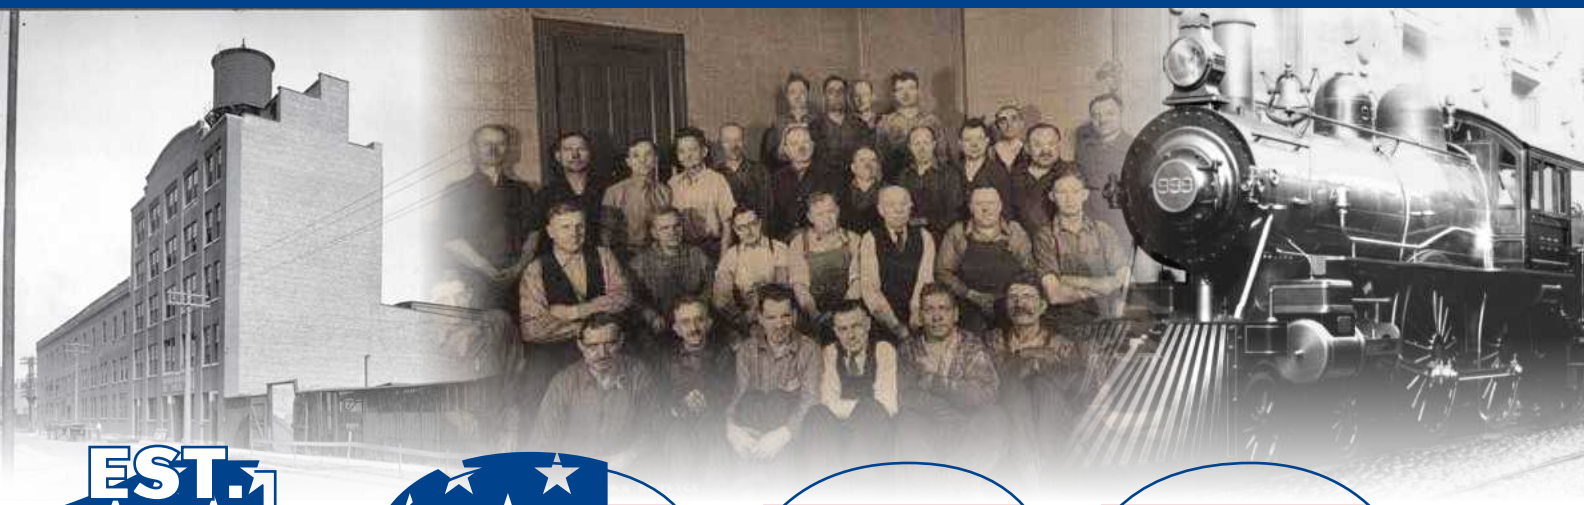
STRIKING TOOLS



EST. 1869

AMERICA'S OLDEST HAMMER MANUFACTURER

In 1869, Alexander Vaughan, a plumber, relocated to Chicago, where he opened a blacksmith shop and designed his “Improved Post Auger,” which he patented. His innovative design quickly gained attention, and soon, requests for hand tools poured in

The company faced challenges, including the Great Chicago Fire in 1871, but was revitalized with the help of Sidney Bushnell, leading to the formation of Vaughan & Bushnell Mfg. Co. in 1882. As the company expanded, it gained a reputation for producing high-quality hammers, hatches, axes, and a variety of hand tools, including chisels, star drills, wrecking bars, and pliers. By 1897, VAUGHAN’s catalog had over 50 different tools in a wide range of weights and sizes.

After Alexander Vaughan’s death in 1905, his son Sanford took over full management of the company. Sanford was an innovator and introduced key design improvements to the traditional carpenter’s hammer—innovations which are found in all hammers being made today. Handle-to-head wedging was improved, and VAUGHAN patented the triple-wedge design. Then in 1918, VAUGHAN introduced its classic 999 pattern ripping hammer.

In 1940, Vaughan moved its operations to Bushnell, Illinois, where the company’s commitment to quality earned its ISO 9002 certification in 1993. In 2018, under the leadership of fifth-generation president Charlie Vaughan, the company expanded further by acquiring DASCO PRO, Inc., an industry leader in the manufacturing of chisels and punches.

Today, as part of MARSHALLTOWN’s portfolio of iconic American-made tool brands, VAUGHAN continues to lead the market in striking tools, maintaining its legacy of excellence that spans more than 150 years.

NAIL EVERY JOB

YOUR GUIDE TO THE RIGHT STRIKING TOOL

Hammers and other striking tools are some of the most misused tools. Injuries can be caused by trying to strike too heavy a blow with a lightweight hammer, by using a damaged hammer, or by using the wrong style of hammer for the task at hand. You should only use the tools that have been designed for the job.

Straight Claw or Rip Hammer
- For framing and ripping
- Use with non-hardened common or finishing nails only

Curved Claw or Nail Hammer
- For general carpentry, model work, or fine carpentry
- Use with non-hardened common or finish nails only

Ball Pein Hammer
- For riveting, center punching, bending, or shaping soft metal

Rawhide Mallet
- For use in furniture assembly, shaping soft sheet metals, or any project requiring non-marring blows

Hand Drilling Hammer
- The only hammer to use with star drills, masonry nails, steel chisels, and nail pullers
- Easy to handle with plenty of punch

Shingling Hatchet
- Ideal for installing shakes and shingles
- Handy, three-position gauge pin for metric and U.S. standards sets exposed length of shingle
- Milled, crowned face sets nails cleanly

Brick Hammer
- Designed for cutting and setting bricks or blocks
- Also used for chipping mortar

Wallboard Tool
- Multi-purpose tool scores wallboard, makes cutouts, and sets nails with a perfect dimple
- Exclusive flat top head permits nailing in corners

DEEP HARDENING

These hammer heads have been cut in half to show what can't normally be seen when selecting a hammer. The left side is a typical example of what some hammer manufacturers consider adequate hardening of the striking face. On the right is a VAUGHAN hammer showing the hardness going deep down to the core of the head, making it safer and tougher.

MASONRY

WHY MARSHALLTOWN?

HIGHEST CARBON STEEL & UNMATCHED HARDNESS
Blade is stronger, more flexible and provides superior wear resistance versus anything else in the market

UNMATCHED CONFORMITY
Perfect blade thickness & taper, every time

SUPREME COMFORT
Patented DuraSoft® grip handle

LONG-LASTING DURABILITY
Forged from a single piece of high-grade tool steel

NO MORE CALLUSES
Safeguards your finger

PERFECTLY BALANCED
Handle rise is set for ideal "hang"

CONSISTENT QUALITY

Steel is carefully forged and heat treated into brick trowels using state of the art equipment that MARSHALLTOWN has developed and refined. This unique factory is dedicated to making the best brick trowels in the world.

Handle rise is always set at precisely the same angle for comfort, consistency and accuracy.

Extremely tight tolerances on blade thickness maintains consistent flexibility and strength on every trowel sold. Precise blade chemistry and hardness guarantees trowel performance better than expected.

BLADE STYLES

LONDON

The industry standard blade shape for laying brick.

WIDE LONDON

Used for laying brick or block. The rounded heel places the mortar further forward on the blade than the Philadelphia style trowels.

PHILADELPHIA

Allowing for more mortar to be placed on the blade, the Philadelphia style blade is best suited for laying block.

HANDLE STYLES

DURASOFT®

- *Most popular handle type*
- *Resilient, comfortable, and long-lasting*
- *Reduces fatigue on the job*
- *Increased user control for a safer experience*

DURACORK®

- *Great alternative to soft grip handles*
- *Textured, tacky feel provides an improved grip while helping to prevent blisters*
- *Lightweight and practically impermeable to liquids like rain, sweat, or water*
- *Comfortable and durable*

WOOD

- *Traditional option*
- *Long-lasting*
- *Offers a smooth grip*
- *Easily shaped during manufacturing to fit the contours of the human hand*

PLASTIC

- *Common alternative to wood handles*
- *Crack-resistant construction*
- *Plastic material is easy to clean*
- *Provides an easy grip*

LEATHER

- *Popular for block and bricklaying*
- *Provides a comfortable, non-slip grip perfect for rainy weather*
- *Gives a luxurious feel*
- *Durable and long-lasting*

London Trowels

- Forged from a single piece of high carbon steel, then heat treated for strength and durability
- Blade is taper ground and polished
- Impact area is extra strong
- Handle rise is set for the correct hang and balance
- Sold 2 per inner pack/12 per outer pack

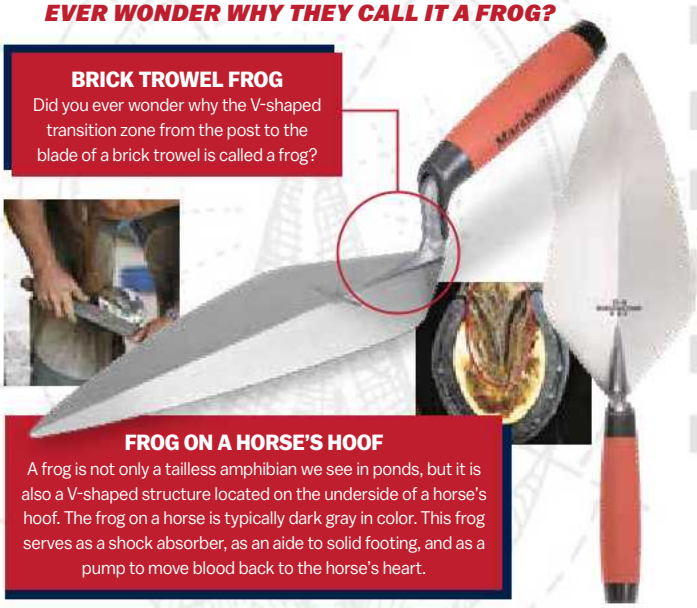
DID YOU KNOW?

EVER WONDER WHY THEY CALL IT A FROG?

BRICK TROWEL FROG

Did you ever wonder why the V-shaped transition zone from the post to the blade of a brick trowel is called a frog?



FROG ON A HORSE'S HOOF

A frog is not only a tailless amphibian we see in ponds, but it is also a V-shaped structure located on the underside of a horse's hoof. The frog on a horse is typically dark gray in color. This frog serves as a shock absorber, as an aide to solid footing, and as a pump to move blood back to the horse's heart.

Ceremonial Trowels

- Excellent for retirement gifts, award presentations or ground breaking ceremonies
- Laser etched graphics on carbon steel blade, clear powder coat for rust protection
- Sold 1 per inner pack/1 per outer pack

SPECIFICATIONS	
Pump Power	2 HP
Pump Voltage	115V
Pump Amp Draw	11.5A
Pump Output	2.6 GPM
Compressor Output	5.75 CFM @ 40 psi 3.00 CFM @ 90 psi
Number of Nozzles	6
Nozzle Sizes (mm)	3, 4, 6, 8, 10, 12
Hopper Capacity	16 gal
Hose Size	1" X 25' (max 100')
Unit Weight	155 lbs

POWERFUL COMPRESSOR

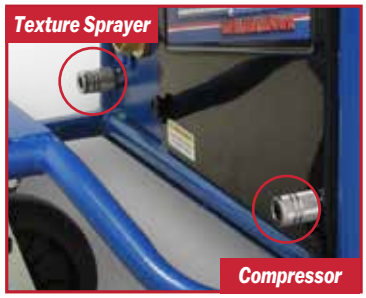
• Atomizes a wide variety of textures
• Projects texture a greater distance compared to competitors
• Consistent air flow through a variety of spray patterns

AMPLE MATERIAL DELIVERY

• 2.6 GPM using a peristaltic pump
• Strong material delivery through 1" diameter hose (100' max length)
• Adjustable material pressure to dial in the correct texture pattern
• Pump requires little maintenance and is easy to replace when worn

DUAL USES

• Can be used as a stand-alone compressor, max pressure 125 psi
• Onboard air tank, great for powering air tools on the jobsite
• Air compressor is perfect for running a hopper gun for touch up work, avoiding the cleanup necessary when operating the texture sprayer itself



SharpShooter® 2.1

- Adjustment knob allows a full trigger pull at any spray setting
- Tick marks located on both sides of gun to indicate knob setting
- Seven orifice sizes (3/16", 7/32", 1/4", 5/16", 3/8", 7/16", 1/2") with tubular design for reduced overspray and greater texture variety
- Knurled knobs let you adjust the orifice plate without wrenches
- Tight sealing flow shutoff prevents leakage
- Angled hopper adapter allows hopper to remain level while spraying floors and ceilings
- Gun features a handy air control valve which allows flow control at the gun instead of at the pump
- Hopper with seamless corner design eliminates material build-up and reduces clogging
- Plastic hopper capacity is approximately 2 gallons (7.57 liters)
- Sold 1 per inner pack/1 per outer pack

Avalanche!® 1000

- Combination kit contains Avalanche! 500 and SnowRake! Deluxe 20
- Removes snow from roofs with ease and speed
- Avalanche! 500 features a smooth 17" (432 mm) wide, 12' (366 cm) long plastic slide that provides a slick surface for snow to slide off roof
- Avalanche! 500 has 1½" (38 mm) wheels that provide adequate space for slide to glide safely over asphalt shingle roofs
- SnowRake! features a 24" (607 mm) wide, durable head with built-in 1½" (38 mm) wheels to prevent roof damage
- SnowRake! can be used on shingles, architectural asphalt, shake, tile, metal, and solar panel roofs
- Easy snap together assembly (no tools needed)
- Lightweight fiberglass handle in four 46½" (1181 mm) sections, full extension has ≈16' (488 cm) reach
- Sold 1 per inner pack/1 per outer pack

Marshall T. Trowel and Family Children's Books

- Written to inspire kids to pursue a future in the construction trades, Marshall T. Trowel and his family of tools demonstrate the necessary teamwork needed to pour a new driveway. Children will see the value in working hard, working together, and the satisfaction of a job well-done. A part of the proceeds from these books will be invested to help the various trades and recruit the next generation of skilled tradesman.
- The second installment of the Marshall T. Trowel series focuses on Marshall T. and his family of tools as they drywall a house. Children will see the benefits of a career in the trades and the importance of practice, patience, and dreaming big. A portion of the proceeds from the book will go toward the Marshalltown High School vo-tech program.
- The third installment of the Marshall T. Trowel series focuses on Marshall T. and his family of tools as they add brick to a building. Children will see the benefits of a career in the trades and the importance of patience, practice, and positivity.
- The fourth installment of the Marshall T. Trowel series focuses on Marshall T. and his family of tools as they work together to replace the flooring at a hardware store. Children will see the benefits of a career in the trades and the importance of having confidence.
- NEW items shown red in table
- Sold 6 per inner pack/ 6 per outer pack

TOOLS FOR SCHOOLS

TRAIN THE BEST WITH THE BEST

MARSHALLTOWN wants to keep the best tools in the hands of your students. With MARSHALLTOWN's Tools For Schools program, there is something for the needs of every school.

DIRECT ORDER PROGRAM

Our Direct Order Program is available to any secondary, post-secondary, or apprenticeship program. This program allows you to purchase directly from MARSHALLTOWN at a budget friendly price and save on shipping costs. Our full product line is available with this program.

BENEFITS

- Orders ship freight prepaid within the contiguous U.S.
- Expedited order processing
- Prices favorable to a limited budget
- Access to all tools in our catalog
- Efficient and easy online ordering option

REQUIREMENTS

- School's name, billing and shipping addresses and phone numbers
- Email address for invoicing
- Instructor's name
- Copy of the school's tax exemption certificate, if applicable

STUDENT AWARD

The Student Award program gives students the extra incentive to achieve superior results and a means for instructors to reward exceptional work.

HOW IT WORKS

An instructor chooses one student per school, per term/semester who has excelled in a masonry, concrete finishing, drywall, plastering, EIFS, or tile program. The instructor nominates the student by completing and sending the MARSHALLTOWN Student Award Nomination Form to MARSHALLTOWN.

The Student Award includes a letter of commendation, a certificate, and a MARSHALLTOWN trowel and hat. All materials are sent to the instructor's attention.

STUDENT REWARDS

MARSHALLTOWN celebrates students and apprentices in the construction trades. As a welcome gift to Team MARSHALLTOWN Rewards, students receive a $25 credit on their account.

Our aim is to fit students with the best tools for life. Enjoy all the benefits of our rewards program, including points to be used with future purchases, free shipping on orders over $49.99 anywhere in the contiguous United States.

- Visit www.MARSHALLTOWN.com/education to sign up as a student
- Receive a free welcome gift when you place an order within 30 days signing up; gift only available in the United States.

SkillsUSA

Among the many competitions that MARSHALLTOWN is involved with, SkillsUSA is the largest. SkillsUSA is a national organization serving high school and college students who are preparing for a career in technical, skilled and service occupations. These young masons compete against the clock and themselves to demonstrate their level of expertise. The contest consists of a written test and the construction of a brick and block composite project. They have up to six hours to complete the project. Once finished, they are judged on several criteria to determine the overall winner.

MASONRY MADNESS

MCAA MASONRY SKILLS CHALLENGE
MCAA FASTEST TROWEL ON THE BLOCK
JUNIOR SPEC MIX BRICKLAYER 500
SPEC MIX TOUGHEST TENDER
SPEC MIX BRICKLAYER 500

SPEC MIX BRICKLAYER 500®

PROUD SPONSOR OF BRICKLAYER 500

A team of one mason and one tender compete to lay a double wythe, 26 foot wall in 60 minutes. The goal, to construct a finished, quality wall containing as many units as possible. Prior to this event is the Toughest Tender competition. Tenders compete to see who can accurately set up their work zones in the least amount of time.
